

# IK-302 Demo Kit

---

## Getting Started

The IK-302 Demo Kit contains four IntelliSockets and an IntelliGateway for a simple Ibis System installation. The demo system requires the tools from an IK-301 Installer Kit in order to be installed.

A full installation tutorial can be found at <https://ibis.io> in the documentation section. In order to access ibis.io you will need to use the account credentials provided to you by Ibis Networks.

## Packing List

Quantity	Item
4	IS-201 IntelliSocket
1	IG-202 IntelliGateway, with power and Ethernet cables
